Sometimes you can break a good rule!

It's usually a wise rule not to plan a chicken dinner before the eggs are hatched.

But not always!

If the "chicken dinner" represents your future, and the "eggs" are financial nest eggs—go ahead and plan!

Especially if your *nest eggs* are U. S. Bonds—all the War Bonds you have bought—all the Savings Bonds you *are buying*. For your government *guarantees* that these will hatch out in just 10 years.

Millions of Americans have found them the safest,

surest way to save money . . . and they've proved that buying Bonds on the Payroll Savings Plan is the easiest way to pile up dollars that anyone ever thought of.

So keep on buying Savings Bonds. Buy them at banks, post offices, or on the Payroll Plan. You'll be building real financial security for yourself, your family, and your business.

Best of all, you *can* count your chickens before they're hatched . . . plan exactly the kind of future you want, *and get it!*

SAVE THE EASY WAY...BUY YOUR BONDS THROUGH PAYROLL SAVINGS
